

# FIRST-TO-SECOND-YEAR RETENTION AS OF OCTOBER 2023

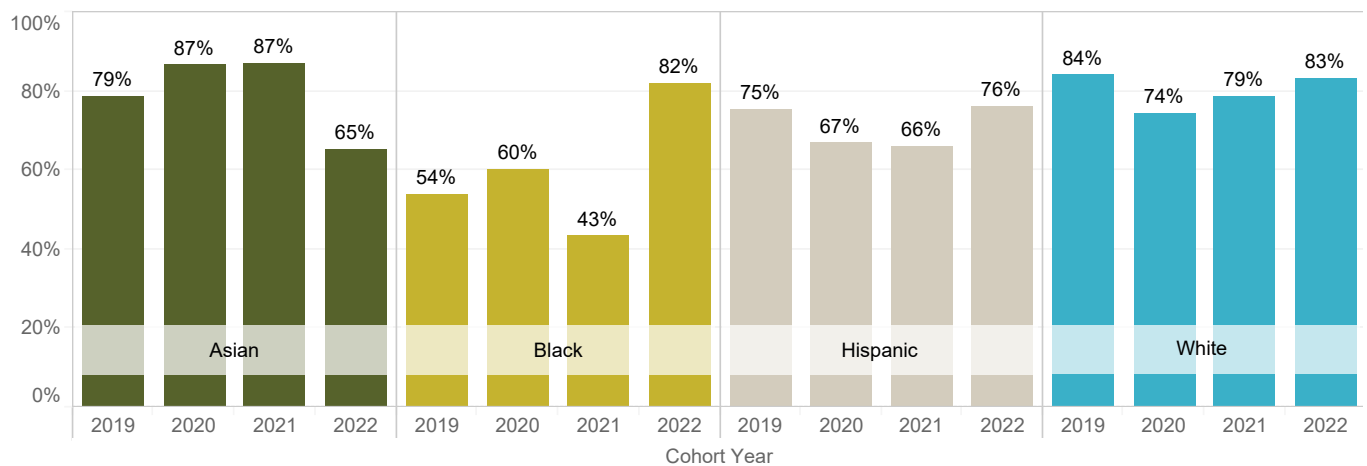

First-to-Second Year Retention Overall

First-to-Second Year Retention by Equity Category

First-to-Second Year Retention by Racial Group

Methodology: All initial populations include the institution's first time full-time cohorts. This data is pulled from the October 15 census. First year retention is calculated by taking the number of students returning in Carthage's undergraduate program the next year with one or more credits and dividing that number by the initial number of students in that year's cohort.
